**Higher Vocational Diploma in
Multiplatform Application
Development (DAM)**

CEAC

1st year · 2024

Institut L'Estatut, Rubí

2nd year · 2025

Luis Ochoteco Asensio

FRONTEND DEVELOPER

Vue · TypeScript · Automation · Barcelona

Profile

Frontend Developer specializing in **Vue 3, JavaScript and TypeScript**, with professional experience building web and mobile applications in production. I combine interface development with process automation, data analysis and API integration, and have hands-on experience working with backend and databases when needed.

Experience

Waitser — Frontend Developer

SEP 2025 — PRESENT

- ▶ Continuous development and improvement of the main Waitser app (web and mobile with Capacitor) alongside another developer.
- ▶ Co-developed the client-facing **Waitser Business** app from scratch, adapting and integrating workflows from the existing platform.
- ▶ Internal business and operational dashboards (Power BI, Airtable, SQL).
- ▶ Automation of operational payment workflows and other repetitive internal processes (Apps Script, Python, SQL).
- ▶ REST API integration and occasional backend work when needed (Node.js, Sequelize, MariaDB).

Waitser — Frontend Developer Intern

DEC 2024 — JUN 2025

- ▶ First professional role as a developer: frontend development in Vue 3 on the production app, before moving to a full-time position.

Projects

Waitser App

VUE 3 · TS · CAPACITOR · REST

App published on Google Play for Waitser professionals: profile, events, applications, calendar and training.

Waitser Business

VUE 3 · TS · CAPACITOR · APIS

Client-facing app published on Google Play. Co-developed from scratch by two developers, adapting workflows from the main platform to manage services, quotes, teams and invoicing.

Família Amic · new website

NEXT · EXPRESS · PRISMA · POSTGRESQL

End-to-end web project currently in development for a non-profit organization, with a Nuxt frontend and an Express, Prisma and PostgreSQL backend.

Beyond Code

Volunteer at Família Amic for about 3 years, several times a month.

Previous background in events, hospitality, logistics, warehouse and laboratory work, building strong adaptability, autonomy and problem-solving skills.
